Software Logic

## Profile

Programming and coding have been my personal passion for years, igniting my creativity, stimulating my problem-solving skills, and fostering an insatiable hunger for continuous learning. I thrive on the ability to transform abstract ideas into tangible software solutions, and the collaborative nature of coding fuels my desire to work with like-minded individuals, communicate complex concepts effectively, and contribute to innovative projects. With a dedicated focus on personal coding projects, I've witnessed the impact of my creations and eagerly anticipate a future where I can push boundaries, embrace emerging technologies, and make a meaningful difference through programming, as it is not just a skill, but a powerful gateway to endless possibilities in the digital realm.

## Education

3.40, Nabin English School

2.9, Golden Gate International College
